copies, the largest paid circulation of any daily paper in this section.

The back of Russia's little rebellion broke of its own weight.

The state press is tipping its collective hat to Chelsea which is making arrangements for the celebration of "Old Home Week." Chelsea always did have a reputation as a good entertainer.

E. L. Bass of Randolph writes the Brattleboro Phoenix that Vermont ought to re-elect Governor Bell, giving as his reasons that Bell has made a good governor and that 24 of the 29 first governors were re-elected. Mr. Bass doesn't say if he is a Hashkins man.

After male Americans had failed all around in their athletic contests with Brits it was left to a "Yankee" woman, Miss Sutton, to wrest the British lawn tennis championship from the English champion. Bravo, for the women.

If a Barre person were to catch a train he never would do it by following the "town clock." Although activity has not entirely left the machinery of our antiquated friend, it has for a month been "the late" town clock. He whose duty falls there should see it and do it.

The slate quarrying business in the section about Poulney, Pawlet and Granville is at a low ebb for this time of the year and the condition is causing a good deal of apprehension, as well it might. Quarrying should be at its best, for it is the easiest time to get at the product, but for some reason, not yet explained, business is very slack. The Poulney Journal says that the situation is particularly unsatisfactory because the present slowness follows a winter when slate quarrying was practically at a standstill. The Journal asks if some other material is taking the place of slate as roofing or if prices are so high that slate cannot compete with other materials. It is probable that other materials are superceding slate as a roofing to some extent, but that does not explain the present shut-down in the quarries. More than likely it is a scheme, as the Rutland News suggests, on the part of the "pooling arrangement," to curtail the supply to keep up the price of slate.

REFUSED TO OBEY.

20 Soldiers at Fort Ethan Allen in a Mutiny.

Burlington, July 10.—A spirit of disobedience struck 20 men of Troop G, at Fort Ethan Allen yesterday morning, when they refused to obey their troop commander, Capt. W. T. Johnston, to work in the garden. Yesterday morning the troops were ordered to take their horses to the lowlands below the post to graze. The captain then ordered them to go to work in the garden. The men had been up until early morning at the fire at the ice house and were very tired. It being Sunday the men did not think this order should be obeyed and refused to do so. They returned to their barracks. It was impossible to obtain a statement from any of the officers as to what disposition will be made of the affair.

Capt. Johnston has been granted a leave of absence for seven days and will leave shortly with Mrs. Johnston for Montreal. On his return he will leave this garrison and become an assistant to the military secretary and judge advocate of the department of the East with station at Governor's Island, N. Y. The men know of this change and state that under another officer things will run smoothly, but if the captain remains a large number of desertions will occur.

PREVENTED A MURDER.

Portsmouth, N. H., Officer Held Up a Shooter.

Portsmouth, N. H., July 10.—Dominic Arnestine, an Italian, was arrested last evening while in the act of trying to put an end to the existence of a fellow countryman, Gracie Ranerio, by shooting him with a big 38-calibre revolver.

Policeman Kelley and Quinn were on Green street about 7:30 o'clock, when they heard two Italians quarreling, and while walking toward them they saw one pulled a revolver and began firing at the other, and he had fired three shots when Policeman Kelley reached him and pulled the gun out of his hands.

The shots came very close to the policeman as they closed in on the Italians, and it is a wonder that none of the shots took effect, for Arnestine was but a few feet from Ranerio when he began firing. Both are held the station, but neither will make any statement as to what led up to the trouble. They are part of a gang employed at Freeman's point.

A BRAVE DEED.

Negro Dived After Purser Who Had Fallen Overboard.

Portsmouth, July 10.—Passengers on the Isles of Shoals steamer Mincola yesterday morning witnessed a brave rescue. Just before the boat left the dock here for the islands, Earl C. Willoughby, the purser, missed his footing while boarding the boat and fell into the dock, going down under the boat.

At the cry of "man overboard," John Johnson, colored, the fireman on the boat, ran up from the engine room and plunged into the water, swimming under the boat. He pulled Willoughby to the top and held him until a rope was thrown and he was pulled out of the water.

SALOONS WRECKED.

Temperance People Blew Up Iola, Kansas, Buildings.

Iola, Kas., July 10.—The saloons here were dynamited last night by temperance cranks and many business buildings were wrecked. The damage will reach at least a hundred thousand dollars.

Big Hotel Burned Today.

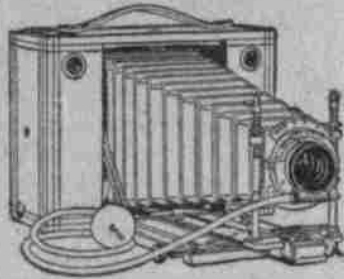

Easton, Pa., July 10.—Texmasa Inn, the largest summer hotel in Pennsylvania, containing four hundred rooms, was destroyed by fire this morning. The loss will reach \$150,000. The hotel was filled with guests, but all escaped without loss of life.

CHINA SEEKS ADMISSION.

Wants to Be Represented in Peace Conference.

Washington, July 10.—China's request to be represented in the Washington conference on the ground that she is vitally interested in its proceedings has been received by the president and informally transmitted to the belligerents. Whether the president has received the formal replies cannot be learned, but it can be stated that while Russia is inclined to favor the suggestion Japan will not consent to it. Japan has already made public her assurances that Manchuria is to be returned to China. That is one of the principles for which she says she has been fighting. Japan regards herself as fully capable of executing this promise without the assistance of China and in view of China's inability before the war to cope with Russia in Manchuria the Japanese government is unable to see what possible service a Chinese representative would be in the Washington conference. Moreover, Japan has all along taken the position that when peace negotiations were begun they should be conducted directly with Russia. It is altogether unlikely that the president will press the claim of China and the official view here fails to sympathize with the idea.

Yucatan has a population of 350,000, and owing to the fact that it is the home of the benign, the agave, which furnishes the finest fiber, the Yucatecos have more money per capita than any other people in the world.

Continents Named For Women.

Three great divisions of the globe took their names from feminine originals—Asia from a nymph of that name, Europe from Europa, the daughter of Agenor, and Africa from Libya, or Aphrica, the daughter of Leucippus. And the fourth quarter, America though named for a man, has been given a feminine ending.

IT KILLS

POTATO BUGS.

Paris Green would be cheap at any price when you think of the rapidity at which potato bugs multiply and take into consideration the amount of damage they will do if you do not take means to destroy them.

The Paris Green we're selling this season is of a particularly deadly quality. Use it before the next set of eggs is laid and you'll have better potatoes and save yourself much work.
